

REMARKS

In this Amendment, claims 25 and 34 are amended.

Upon final review of the application in preparation for payment of the issue fee, inadvertent errors in claims 25 and 34 were found. This Amendment under 37 C.F.R. 1.312, correcting those errors, should be entered, at least because the amendment provides proper antecedent basis in claims 25 and 34 and those which depend therefrom. The amendments are to dependent claims, which are patentable without or without the amendment. The amendment creates no need for additional searching or examination.

The Examiner is encouraged to contact Applicants' undersigned representative if such contact would be helpful in any way.
